FOR IMMEDIATE RELEASE

Assessors Office Launches Redesigned Website

WOODBINE, Ga. – August 13, 2020 – The Camden County Board of Assessors are pleased to announce the launch of their redesigned website. With assistance from Assessors Office staff, www.camdencountymaps.com, was developed by Schneider Geospatial.

“I invite everyone to take an opportunity to visit the site and look around,” said Chief Appraiser Brian Bishop. “We’re very proud to be one of the first in the State of Georgia to upgrade to this new website format and look forward to the benefits it will provide to our taxpayers.”

This is the first major update since 2006. The new design seeks to increase accessibility, functionality, and efficiency for the benefit of all Camden County citizens. From the website users are able to:

- Perform property searches,
- Perform sales searches,
- Estimate taxes,
- Download forms, and
- Read frequently asked questions.

Due to the spread of COVID-19 in our community, Camden County citizens are encouraged to conduct business with the Assessors Office [online](#) or by phone at 912-576-3241.

About Camden County Board of Assessors: Operating under the Georgia Revenue Codes, the Board of Assessors is responsible for the appraisal and assessment of all residential, commercial, and personal property in Camden County. Property is appraised at 100 percent of its fair market value and assessed at 40 percent of that value. The Board of Assessors is a five-member body of appointed citizens of Camden County, who meet every month at 6:00pm unless otherwise posted. They are appointed by the Camden County Board of Commissioners and operate autonomously. A chairman, vice chairman and secretary are elected on an annual basis. The Board of Assessors hires a chief appraiser to administer the functions of the Property Appraisal Department.
