Camden County Board of Commissioners  
Attn: Willis R. Keene, Chair  
200 East 4<sup>th</sup> Street  
Woodbine, GA 31569

Dear Chairman Keene:

On behalf of the Brantley County Board of Commissioners, we wish to express our full support for the pending OneGeorgia Equity grant application submitted by the Camden County Board of Commissioners.

We understand that Camden County is supporting the Camden County Joint Development Authority (CCJDA) in completing an Environmental Impact Statement (EIS) for a proposed spaceport site on former industrial property in Camden County. The private investment and jobs created by this project will have a significant regional impact because of job opportunities that will be made available to residents of Camden County and also other areas in our region.

Brantley County Board of Commissioners and Camden County share a common interest to work cooperatively to create jobs and other opportunities for our citizens.

We support you in your efforts to assist this industry to locate in our area. We also support the OneGeorgia Equity Fund grant allocation for the project. Please contact me if I can assist in any way.

Sincerely,

Charlie Summerlin, Chair  
Brantley County Board of Commissioners
