## Permit Acknowledgement of Asbestos/Environmental Notification to Georgia EPD for Projects Involving Demolition, Wrecking or Renovation

The undersigned hereby acknowledges that the issuance of this permit does not in any way grant permission to the owner, owner's representative, or permit holder to proceed with demolition, wrecking or renovation of a structure prior to the filing of any required ten (10) day ***Georgia Project Notification Form for Asbestos Renovation Encapsulation or Demolition*** in accordance with the Georgia Asbestos Rules. The Georgia Environmental Protection Division (EPD) administers the rules. In most cases, the rules require both the owner and the involved contractors to assure the portion of the building involved in the project is thoroughly inspected by an Accredited Asbestos Inspector for materials that contain asbestos; and the removal of the asbestos before renovation, wrecking or demolition begins almost without exemption. The Georgia EPD requires a ***Notification Form*** be submitted ten (10) working days in advance even if no asbestos is present in the building. Further guidance for regulatory compliance and contact telephone numbers are provided on the Georgia EPD website at [www.gaepd.org](http://www.gaepd.org). Other environmental issues such as asbestos removal techniques, lead abatement, ground contamination or unusual site conditions may have EPD regulations that could affect the project.
