FOR IMMEDIATE RELEASE

County Administrator Returns to Atlanta for Georgia Space Working Group

WOODBINE, GEORGIA – July 17, 2015 - On July 21, 2015 Camden County Administrator Steve Howard will be in Atlanta giving an update on the Spaceport Camden project and anticipated next milestones for the project. The Georgia Space Working Group was established in 2011, and brings together aerospace leaders from across the state dedicated to growing existing Georgia space companies and attracting more space industry employers to the state. With its strong aerospace industry, Georgia is a natural place for space-related companies to seek educational, manufacturing and research partnerships as well as to hire skilled workers across space sectors which include defense, intelligence, civil and commercial activities and users.

“I look forward to attending and addressing the space working group on the exciting accomplishments since my last attendance update as we continue to work towards the goal of making this project a reality. The success of this project is important to ensure Georgia’s vision for the space sector is realized” stated County Administrator, Steve Howard.

ABOUT SPACEPORT CAMDEN: Our Vision is to develop a successful world class spaceport through a public-private partnership that establishes Camden County as the Space Center of the United States. Our Mission is to create the premier spaceport strategically positioned to provide economic diversity with a competitive advantage for the space sector, Camden County, the State of Georgia and the United States of America. For more information please view our website at www.SpaceportCamden.us.
